NOTE TO: DCI

Senator Moynihan called. He said "he was now feeling good about it all." The text used was one familiar to him from previous days; it seems that clearly we had looked at it and asked if we could do the same things today, and answered: No. If it were an original work done by us, we'd have a problem.

He said he talked to the D/IG, asking him when he expected to finish. He stated that "Barry doesn't care strongly about holding a hearing before the elections but he (Moynihan) cares a lot." He strongly believes it is in the Agency's best interest to get this all behind us and to do so before next Tuesday.
